

Energy Skilled Recognition

Wordmark Use Guidance

Energy Skilled™ recognition allows training and certification programs to align with the U.S. Department of Energy's clean energy transition work and distinguish themselves as preparing workers for meaningful and in-demand job opportunities. We encourage those whose training programs are recognized by the Department of Energy as Energy Skilled ("Recognizees") to apply the wordmark to program materials to signal to the market their leadership in skill development for an energy-efficient future.

Only programs that have met the recognition requirements may use the official Energy Skilled wordmark. Current recognition categories include:

- Heat Pump Installation
- Heat Pump Comfort Advising
- Heat Pump Water Heater Installation
- Single Family Home Energy Audit
- Multifamily Home Energy Audit

Energy Skilled was developed by the U.S. Department of Energy (DOE) to indicate receipt of recognition and is not an endorsement by DOE. Reference to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof.

Wordmark file formats

Your electronic letter of recognition from the Department of Energy includes the name of the category for which your program is recognized, as well as a link to download the zip folder that contains the wordmark graphic files specific to your recognition category. The wordmark graphic is available in a variety of formats. PNG and JPG are best for digital use (e.g., on your website or digital materials). SVG is recommended for all printed materials, especially large sizes, as PNG and JPG will lose resolution and look pixelated at large scale.

Where to use the wordmark

Your electronic letter of recognition also includes the name of the program that has received Energy Skilled recognition. Recommended placement for the wordmark includes:

- Pages on your website that are specific to the recognized training or certification program.
- Digital or print materials, such as in the introductory section for the recognized program, or frontmatter of a program-specific textbook.
- Digital communications such as social media, articles, and newsletters specific to the recognized program.
- Printed brochures or other marketing documents specific to the recognized training or certification program.
- Institutional reports about the recognized training or certification program.

With digital use of the wordmark, please hyperlink the graphic to the Energy Skilled page on the Building Science Education website: <https://bsesc.energy.gov/recognition>. Do not link to any other website.

Do not use the wordmark:

- In association with any physical product or product packaging other than those associated with official training or certification materials, such as textbooks or pamphlets.
- In association with any training or certification program your organization offers that is not specified in your letter of recognition.
- On any promotional giveaway items.
- In paid advertisements.
- On company signage.

How to use the wordmark

Energy Skilled recognition may only be used in relation to the program specified in your letter of recognition. You must avoid any language that suggests your organization as a whole is recognized by the Department of Energy. If you have other phrasing or content you would like to use in conjunction with this recognition, please email energy.skilled@pnnl.gov to discuss.

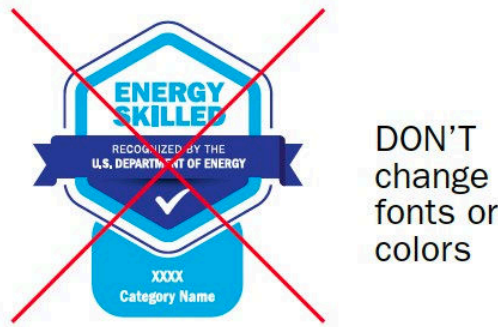

Minimum width:

Screen: 100 px

Print: 1.5 inch

Wordmark pitfalls to avoid:

- **Always:**
 - Ensure wordmark dimensions remained locked when resizing (tip: hold down the “shift” button when resizing).
 - Display the wordmark horizontally.
 - Show the wordmark in its entirety.
- **Never:**
 - Recreate the wordmark.
 - Apply effects to the wordmark.
 - Alter the type face in any way.
 - Tilt or cut off the wordmark.
 - Separate the wordmark elements.
 - Remove the text from the wordmark.
 - Place the wordmark on a busy pattern (only place it on a solid background).
 - Use the wordmark in a manner that is misleading, unfair, defamatory, infringing, libelous, disparaging, obscene, or otherwise objectionable to the U. S. Department of Energy.

How to pair the wordmark with text

When pairing the wordmark with text that states the name of the recognized training or certification program, please use these guidelines:

- **Preferred:** “[XXXX organization/training or certification provider’s] [XXXX training or certification program] is recognized by the U.S. Department of Energy as Energy Skilled in [XXXX category name].” (reference list of categories above)
- **Preferred:** “The U.S. Department of Energy has recognized [XXXX organization/training or certification provider’s] [XXXX training or certification program] as Energy Skilled in [XXXX category name].”
- **Acceptable:** “[XXXX organization/training or certification provider’s] [XXXX training or certification program] is Energy Skilled-recognized by the U.S. Department of Energy in XXXX category name].”

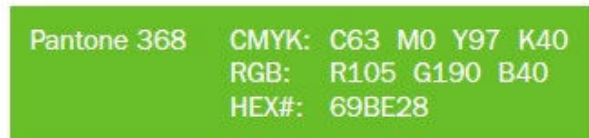

- **Language to avoid:**
 - Do not refer to Energy Skilled recognition without:
 - The name of the specific training or certification program that has been recognized.
 - The name of the category in which the program has been recognized.
 - Do not abbreviate Department of Energy to DOE.
 - Do not use the word “certified” or any other alternative to “recognized” in reference to the Department of Energy’s recognition of an individual training or certification program.

Colors:

Primary:

Secondary:

Alternate: If you are unable to match the primary and/or secondary colors, use black text.

Fonts:

Primary:

Franklin Gothic Heavy
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890 !@#\$%^&*()-=+

Franklin Gothic Book
 ABCDEFGHIJKLMNOPQRSTUVWXYZ
 abcdefghijklmnopqrstuvwxyz
 1234567890 !@#\$%^&*()-=+

Alternate (if primary font is not available):

Arial Bold
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890 !@#\$%^&*()-=+

Arial Regular
 ABCDEFGHIJKLMNOPQRSTUVWXYZ
 abcdefghijklmnopqrstuvwxyz
 1234567890 !@#\$%^&*()-=+

Text placement and sizing:

- The text must appear below the wordmark.
- The text must be centered.
- The text must not exceed the width of the wordmark (see “minimum wordmark width” section below). You may split the text evenly into two lines, single spaced, if needed.

[example: **Sample Heat Pump Installation Training Program**]

Questions?

This recognition program is managed by Pacific Northwest National Laboratory. Contact the team at energy.skilled@pnnl.gov.

For extended brand guidance, please see the Department of Energy Office of Energy Efficiency & Renewable Energy [Communication Standards and Guidelines](#).

Appendix A: Sample messaging for affiliates of the recognized credential

If your organization has a documented relationship with affiliates (individuals or organizations) who assist in promoting, educating, training, or testing candidates/students for the Energy Skilled-recognized credential, we encourage you to engage them in communicating your credential's recognition to their audiences.

We have provided below a set of sample messages you – the Recognizee – can use to help your affiliates communicate your credential's Energy Skilled recognition. Recognizees can craft custom messages to share with your affiliates using the Energy Skilled Branding Guidelines and the sample text below. Please note, the Energy Skilled wordmark (the logo provided to you via email) is not allowed to be used by any organization other than Recognizees.

If you have any questions about communicating your credential's recognition with affiliates, please contact us at energy.skilled@pnnl.gov. Our communications team can answer questions, review your drafted text, and provide feedback to support alignment with the guidelines.

Energy Skilled was developed by the U.S. Department of Energy (DOE) to indicate receipt of recognition and is not an endorsement by DOE. Reference to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof.

Sample text for Recognizee's outreach to its relevant affiliates:

*We are pleased to have received recognition from the U.S. Department of Energy (DOE) for our [name of Energy Skilled-recognized credential] credential. Recognition as **Energy Skilled** signifies that our training programs and certifications align with the DOE's clean energy transition goals, and allows them to be eligible for state-level funding opportunities through the Inflation Reduction Act.*

We want to share the good news with our extended audience, so that current and prospective credential holders will know the added value of [name of Energy Skilled-recognized credential] Please update your materials (website, course listings, social media, etc.) to reflect the Energy Skilled recognition status, using the sample text provided below.
